

# Basic to Advanced (BS4872) Coded Welding Skills

Employer Training

Leisure and Professional

This practical hands-on Coded welding course covers MIG/MAGS, MMA and TIG welding processes to British Standard 4872. You can choose the process or processes. You will learn to set-up and use the equipment safely, how to set the welding parameters and electrical conditions, relevant to the welding process required and material to be joined.

You will be trained in techniques to cover, multi-run Fillet and Butt welds in various positions and material thickness's.

You will be assessed by a CSWIP trained, Welding Institute approval tester.

Cost £410 with a £50 British Standard Certificate fee if assessment standard reached.
