

T Level Health – Supporting the Mental Health Team

16-19

T Levels are a 2-year qualification that you can do after your GCSEs as an alternative to A levels, other post-16 courses or an apprenticeship. They have been designed with leading businesses and employers to give you the knowledge and skills you need.

Your T Level will be worth UCAS points (a T Level Distinction* is worth the same as 3 A levels at A*) and will be recognised by universities and other education providers so you can choose to continue studying if you wish.

Opportunities within healthcare are rising, with a predicted growth of over 290,000 jobs by 2024, which means that now is a fantastic time to get into this rewarding sector.

Careers in healthcare are fulfilling, making a real difference to the lives and welfare of others. If you're caring, compassionate and supportive, then you'll be well-suited to a career in this sector, with plenty of opportunities to progress and climb the career ladder.

This qualification has been designed with employers and businesses and is structured to allow you to spend 80% of your time in the classroom and 20% on a 45-day placement.

This two-year qualification in health has been developed in consultation with employers in the industry to ensure that you will develop the core knowledge and practical skills needed to work within a range of health occupations.
