

# Unvented Hot Water Supply, Commissioning & Servicing NICEIC

Adult

Employer Training

This course is suitable for all plumbers and engineers involved in the installation, commissioning, service and repair of hot water systems, solar thermal hot water systems or air source/ground source heat pumps.

To enrol on this course, you will need:

A recognised competence in a conventional fuel (i.e. gas, oil, or solid fuel) or a relevant plumbing qualification such as an NVQ level 2 or equivalent experience

A WRAS approved Water Regulations qualification

An Energy Efficiency qualification issued by a 17024 UKAS accredited body

During this course, you will cover:

Building Regulations Approved Document G

Water Regulations 1999

Unvented hot water system design

Installation requirements

The programme is 75% theoretical with 25% practical assessment. Upon successful completion, you will have the knowledge to work safely on unvented hot water systems in accordance with all relevant legislation.
