

Healthy Classic Curries for You and Your Family

Adult

Leisure and Professional

This is the ideal class for curry lovers!

You'll leave with the skill to make healthy curries at home for you and your family. Curries can provide many health benefits, and they don't have to be full of saturated fats. The spices used in curries, such as turmeric, ginger and chilli are known for their anti-inflammatory properties, as well as being beneficial for a healthy heart.

With some easy changes, you can make curries lighter without scrimping on taste, and it's a great way to add to your five-a-day!

There is a fee of £30 to cover ingredients and teaching materials.
