

Women Only Introduction to Motor Vehicle Maintenance

Leisure and Professional

This course will be a nice relaxing environment for women age 19+ to be able to enjoy a stress-free learning area.

You will get to expand your knowledge of vehicles and how they are serviced. Learn how to replace a wheel, check your levels and even how to service your own car!

By the end of this course you'll either be wanting to learn more and move onto another course in mechanical engineering or at the very least leave satisfied in the fact you now know enough about your car to take it confidently into any garage and know what's happening behind the scenes.

This will be and all women's class including a female tutor. just a few hours a week to escape the real world and relax while learning a few basic skills of a new trade.

You will need to bring with you: steel toe capped boots, overalls/ fit for work clothing, an open mind and a keen attitude!
