

IMI Award in Automotive Refrigerant Handling – Level 3

Adult

Employer Training

This qualification offers automotive technicians the opportunity to develop new skills and enhance existing ones. It also incorporates Unit AC1 (K/600/3391) Refrigerant Handling (EC842-2006). This unit is approved by Defra for MAC technicians (working with cars and car derived vans) who handle F-gas.

From 4 July 2010 all MAC technicians must have achieved, as a minimum requirement, a Defra-approved refrigerant handling meeting the EU F-gas regulations (Commission Regulation EC 842/2006 and the Annex to Commission Regulation EC 307/2008). This is a legal requirement for all technicians working on MAC systems (cars and car derived vans).

ENTRY REQUIREMENTS

The qualification is suitable for:

Automotive technicians who wish to expand their breadth of knowledge in the routine servicing and maintenance of mobile air conditioning (MAC) systems.

Competent MAC technicians who have already completed a previous qualification* – or 'in-house' training (carried out before 4 July 2010).
