

# Improving Your Landscape Photography Workshop

Adult

Leisure and Professional

This workshop will start with a trip to one or two local scenic sites (subject to weather conditions).

Once there you will learn how to set up and use your digital camera to give the best RAW files for processing in software off camera. Covering techniques for HDR, focus stacking, panorama, selecting the correct exposure (and metering techniques) in challenging lighting conditions and improving your composition.

We will then return to the college to process the images to give the best quality and introduce desired effects. Finally producing a print of your best image.

You will need your own digital camera and tripod for this workshop. You will also need to provide your own transport to the local scenic sites and to the college.

Fee payable when booking.

This workshop runs on a Saturday from 10.00am to 3.30pm.

Venue:-

Cornwall College Camborne  
Trevenson Road  
Pool  
Redruth  
TR15 3RD
