

Understanding the Safe Handling of Medication in Health and Social Care

NCFE

Adult

Employer Training

The objectives of this qualification are to prepare learners for further training and to support a role in the workplace.

This qualification aims to help learners develop:

- a general understanding of different types of medication and their use
- knowledge of the procedures for obtaining, storing, administering and disposing of medication
- an understanding of legislation and the audit process related to medication and issues of responsibility and accountability
- an understanding of the record keeping process for medication.

This 6 month course is flexible and can be delivered in venues across Devon and Cornwall.
