

Games Design and Animation Diploma

16-19

Adult

UAL Level 3 Diploma and Extended Diploma in Creative Media Production & Technology

Do you love games? Are you passionate about platformers, barmy for board games and know your RPG stats inside out? Then why not come and join us on the Games Design course and find out what you are capable of!

UAL Games Design is a two-year, coursework based, practically focused course where you learn the skills needed to move onto University or your first steps into the ever-expanding UK games industry. We focus on the development of games and game art and assets, so you don't need to be a coding master to succeed!

From developing pixel art 2D levels to fully textured 3D environments and characters we help you bring your ideas to life through our student focused curriculum. We'll teach you how to apply essential theories to your thinking and your game products, will support you develop your own games (both digital and physical) and take your aspirations and career aims and make them our number one goal. In the first year of Games Design and Animation Diploma, you will even create a fully realised board game, use 3D printing techniques and a full production process to launch the product in a live premiere event – and all in just ten days!

Making use of the most up to date games development and digital media software you will learn to create with Adobe Creative Suite, including Premiere Pro, Photoshop, Animate, After effects and more...3d modelling software such as Autodesk 3ds Max and Autodesk Maya. Game engines like Construct 3 and Ue4 and learn to work with the latest gadgets like the Oculus Rift Virtual Reality System.

This course is offered at both our Camborne campus and our St Austell campus where you will benefit from access to everything that we offer in the Dance, Drama, I.T. and Multimedia courses and will be involved in developing our social media presence through Instagram, YouTube and Facebook.

So, if playing games is your first step to making games, come and join us and let's work together to turn you from a gamer into a games designer!

ENTRY REQUIREMENTS

We expect four GCSE's at grade 4 and above, one of which should be in either English or maths. You will also need to attend either a face to face or phone interview with the Study Programme Manager. Portfolios of work can be presented or emailed at interview alongside any other certificates, qualifications or experience you feel is beneficial for us to know about.

For those students that don't quite meet the entry requirements we also run a one year, Level 2 UAL course in Media Production designed to feed directly into the Games course the following year.
