

# Sports Massage (Soft Tissue Dysfunction) L4 Certificate

Adult

The level 4 sports massage qualification is a progression from level 3 and will equip you with all the skills you need to treat sports-related injuries and support the recovery of clients. This Sports Massage course was developed in association with The Association for Soft Tissue Therapists (SMA) and is fully endorsed and supported by The General Council for Massage Therapy (GCMT).

Upon completion of the course, you will be able to gain employment as a Sports Massage Therapist and obtain insurance, whether that is in your own practice or working alongside physiotherapists, chiropractors, and osteopaths within a sports massage clinic.

You'll learn how to use advanced assessment techniques and deep tissue massage to treat existing conditions resulting from soft tissue dysfunction, treat minor injuries sustained during physical activity, and ease muscular tension in your clients.
