

Bench Joinery Diploma

Adult

This course will give you opportunities for work both locally and if you want to travel the world.

The course will enable you to take your Joinery skills far beyond the usual DIY level and give you an understanding of general building construction along with the part a Bench Joiner plays in the manufacture of building components and how they fit into the construction of all sorts of buildings.

The course will enable you to work confidently in a Joinery workshop. All of our training takes place in our state of the art joinery workshop to add a bit more work realism to the course that reflects the equipment available in industry.

We have a large range to tools and equipment for you to practice with, you'll also have access during the course to our wood machine shop to experience the machines we have. Your teaching will be delivered by highly experienced qualified trade's people who have many years' experience of working in the construction industry as bench joiners.
