

# Access to HE Diploma (Social Sciences)

## Adult

Access courses are designed as a stepping stone to enable motivated, enthusiastic people to progress onto Higher Education. This course is ideal if you want to re-direct your career into areas, amongst others, such as social work, teaching or health and social care management.

This course would also be ideal for those wishing to take a social sciences subject specific degree such as sociology, psychology and criminology etc.

This is a challenging course and it is expected that students will complete a minimum of 15 hours additional independent study each week. Students may access college facilities on the days that they are not taught with some evening study available.

Please also be advised that most universities require work experience to complement your UCAS application. It is therefore highly recommended that you find work within the health care sector in either a voluntary or paid capacity. Please Note: This course is only available to applicants who are 19+
